1. Target market for this product

Target Market

This TMD only concerns one type of borrower who might require this product, i.e. borrowers who are 'retail clients' within the meaning of the Design and Distribution Obligations (DDO) legislation, to whom an exemption does not apply. For the avoidance of doubt, this document does not apply to and may be ignored in respect of other types of borrowers who are not 'retail clients' for the purpose of the DDO legislation or borrowers who require credit wholly or predominantly for business purposes.

The retail clients to whom the DDO legislation applies and for whom this product has been designed are those who in each case do not propose to use the loan wholly or predominantly for business purposes and:

- want a term loan to finance or refinance the acquisition of residential or commercial property for the purpose of it being used as an investment;
- want to repay the interest amount only for a specified term (interest only up to 5 years) and then repay the principal balance as well as the interest accrued over the remaining term (maximum total term is 25 years for residential secured or 20 years for non-residential secured)
- want flexibility to make additional repayments and have access to those early repayments;
- can afford the loan; and
- can provide commercial and/or residential property as security for the loan

The retail clients for whom this product has not been designed are individuals who require credit wholly or predominantly for personal, domestic or household purposes e.g. individuals who require a loan to buy a property to live in.

Product Description

The Delphi Business Loan Interest Only Loan (Variable Rate) is a variable interest rate term loan which is used to finance or refinance the acquisition of a residential or commercial investment property. Borrowers pay interest only for an initial period (up to 5 years). This loan allows the borrowers to make additional repayments without incurring early repayment costs and have access to them.
